

Say Hello to Automated Compliance

CE Smart allows organisations to check, fix and certify for Cyber Essentials. We make it as easy as possible to achieve certification by deploying smart software and offering real-time guidance on remediation. Go beyond an annual snapshot for the first time with continuous monitoring and reports.

Platform Features

- ✔ Cloud based platform with instant online access
- ✔ End point scanning across all machines including checks for:
OS updates, Patches, Antivirus, Firewalls, User rights, Secure configs & more
- ✔ Integrated and guided Cyber Essentials questionnaire with live support
- ✔ Rapid digital issue of Cyber Essentials certification
- ✔ Continuous monitoring of devices with weekly security reports

Why use CyberSmart?

Online platform, no need for manual lists and word docs
Quick and easy, get accredited in 24 hours
Guaranteed Cyber Essentials certification

The Process

The platform is designed to assist organisations in achieving Cyber Essentials certification in the easiest and the shortest time possible.

The entire process can be divided into four parts:

Managed Cyber Essentials from £1,500 plus VAT
